

LitMetExpo – 2018

International foundry and metallurgical technologies trade fair

10-13 April 2018, Pobediteley Ave. 20/2, Minsk, Republic of Belarus

Organiser:

MinskExpo, JSC
Association of foundrymen and metallurgists of the Republic of Belarus

Under support:

The Ministry of Industry of the Republic of Belarus
The National Academy of Sciences of Belarus
The Belarusian National Technical University (BNTU)
World Foundry Association

Exhibition profile:

- Foundry technologies and equipment
- CAD, simulation of casting processes and metallurgical technologies
- Rolling, hardware production
- Tube/pipe production
- Plate rolling
- Rolling mills and press-forging equipment
- Injection molding equipment
- Steel and cast iron electric melting
- Special types of casting
- Metallic charge materials and casting equipment
- Processing of secondary raw materials, recycling
- Alloy reprocessing
- Gas emissions purification, environmental protection
- Control automation, information technologies
- Testing and measuring equipment and technologies
- Industrial heat treatment equipment and technologies
- Auxiliary equipment for metallurgy
- PVD, CVD
- Transportation and storage, logistics
- Personnel training
- Metallurgical production
- Industrial associations, branch publishing houses, specialized literature

Joint exhibitions:  **MECHANICAL ENGINEERING**  **WELDING & CUTTING**
